

Automotive Service Solutions

SHOP™
Automotive Service Supplies **Plus**

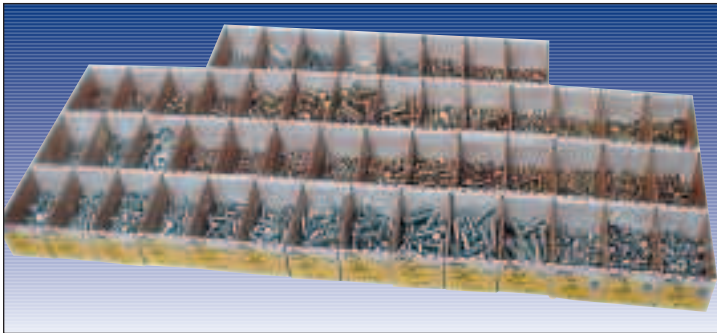

Automotive Service Solutions

- Increase shop productivity & profits
- Have the right part & reduce bay down-time
- Considerable savings compared to purchasing locally

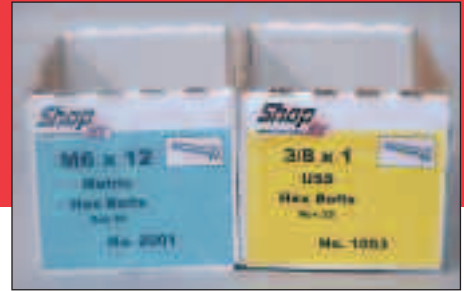

The ShopRx Solution Advantages:

Compact Wall Rack makes parts easy to stock and keep organized. Rack is expandable and will hold up to 70 boxes

Hardware is packaged in manageable quantities resulting in minimum investment and maximum turnover.

Color-coded boxes make it easy to identify and re-order. Re-order reminder label is printed on the back of each box.

Compare ShopRx to older, inefficient systems...

Bin systems can take up three times the space of the ShopRx Wall Rack.

ShopRx wall rack keeps hardware in its proper package.

ShopRx hardware is easy to reorder compared to other storage methods.

Automotive Assortments

General Shop Hardware

50 of the most commonly used nuts, bolts, washers and cotter pins. Selection includes both US Standard (color coded yellow) and Metric (color coded blue) – Grade 5. Assortment totals 2,935 pieces.

Wheel Hardware

Assortment includes 37 of the most popular wheel studs and lug nuts. 23 wheel studs (color coded green) and 14 lug nuts (color coded brown) – Grade 8. Application data included.

Oil Drain Plugs & Gaskets

Specially designed assortment contains 17 of the most common oil drain plugs and fiber gaskets. Gasket application data is printed on each drain plug label. 265 pcs. Wall rack not included. Application data included.

Tire Pressure Monitoring System (TPMS) Replacement Kits

Each TPMS Kit Includes:

- Valve Core
- Valve Cap
- O-Ring
- Ferrule Nut
- Kits are individually packed in a poly bag.
- Packaged as 12 kits per box.

RECOMMENDED REPLACEMENT

It is recommended that the TPMS valve kit be replaced whenever the valve is removed or loosened from the sensor to ensure the Tire Pressure Monitoring System is working properly. Once the valve is loosened, it greatly reduces the ability of the O-ring to properly seal air from escaping.

Automotive Fuses

ATO (Autofuse) Blade Fuse

ShopRx offers a variety of the most commonly used fuses for most cars, trucks, buses and off-road vehicles.

Mini Blade Fuse

ShopRx offers a variety of fuses to meet OEM requirements to protect a greater number of circuits without utilizing more space.

Both feature industry standard color coding to indicate amp rating.

Voltage characteristics: 32V AC/DC Fast acting
