Brake Line Coating

Dynamic offers three superior quality types of brake line - each offering excellent performance and corrosion resistance.

GALFAN® - is durable coating that helps resist abrasion and is a step above the many zinc coated brake lines on the market today.

It will not chip, soften or blister when exposed to corrosive fluids. ALGAL utilizes a hot dip coat of zinc aluminum alloy plus a thermoset aluminum rich epoxy top coat. It exceeds 2,000 hours of salt spray testing. ALGAL meets stringent auto industry requirements.

- Double-walled construction.
- Zinc coated.
- Aluminum epoxy top coat.

PVF - Polyvinylfluoride is a durable, highly abrasion resistant coating. It is another option for corrosion protection on double-wall brake lines.

This coating consists of a PVF topcoat that is painted and cured over an electroplated zinc substrate. PVF exceeds 2,000 hours of salt spray testing.

- Double-wall construction.
- Zinc coated.
- Polyvinylfluoride topcoat.
- Olive green color.

Copper-Nickel - is an alloy of 90% copper and 10% nickel which has a very high corrosion resistance. It out performs standard double-walled tubing.

Copper-Nickel is easy to bend and flare for trouble-free installation.

It provides superior reliability and durability for long-life functioning of the brake system.

Brake Line Displays & Assortments

Floor Display No. FBD-24

- Heavy-duty wire construction.
- Black powder-coat finish.
- Holds 24 tubes of brake line - 8" to 72" lengths.
- Includes line identification placard.

Wall Rack No. WBD-7

- Heavy-duty wire construction.
- Black powder-coat finish.
- Holds 7 lines - up to 10 lines per slot.
- Mounting tabs make easy wall installation.
- Includes line identification placard.

Brake Fitting Assortments

Dynamic Brake Fitting Assortments make it easy for any repair shop to keep the most popular fittings on-hand and organized. They save time and increase productivity by having the part available when needed.

Each assortment comes in a see-through plastic organizer box. Inside each lid is a plan-o-gram that makes identifying and reordering the part fast and easy.

No. BLF-1 Brake Line Fittings Assortment

General assortment of tube nuts and unions. Fittings include applications for British, European, and Japanese systems. 14 part numbers and 64 pcs.
