## JohnDow Industries Appoints JKC Associates As Sales Rep. Firm For EuroVent® Line

**Barberton, Ohio** – JohnDow Industries recently announced the appointment of Jeff Casey of JKC Associates as its newest manufacturer’s representative for the EuroVent® product line. JKC, located in Powder Springs, Georgia, will represent EV in the states of Georgia and Alabama. Jeff has been in the Rep Agency business over 25 years and in the Atlanta market since 1990. He went on to state, “I am excited concerning the new relationship with JDI and its EuroVent® product line and I am focused on providing the very best support to key distribution for this fine organization”

EuroVent®, a brand of JDI, is a manufacturer of cost-effective solutions for removing toxic exhaust fumes from auto repair facilities and dealership service departments. EV is the largest supplier of “rail type” vehicle exhaust systems in the United States.

Compared to traditional overhead and in-ground systems, the EuroVent® Vehicle Exhaust Extraction system offers significant advantages of limitless flexibility, maximum efficiency, minimal operating costs, ease of use, and reduced installation time. EV’s rugged aluminum rail design is virtually maintenance-free and creates a clean, modern, and professional image for any service department.

Mark Pfleeger, Vice President-Sales stated that “we are looking forward to JKC’s help in enhancing brand awareness and sales in the Georgia and Alabama markets. The EV product line has been a real winner for JDI and plans are to aggressively penetrate all appropriate markets even further”.

JohnDow Industries is a manufacturer of automotive shop equipment and supplies. Brands include Fuel Chief, Portable Fuel & Handling; Crew Chief, Used Oil & Fluid Handling; EuroVent®, Vehicle Exhaust Extraction; JohnDow, Automotive Service Equipment; and Shop RX, Automotive Service Supplies.
