

New from EuroVent, the leading manufacturer of "Overhead Rail-Type" Exhaust Systems is the "Telescoping" Overhead Vehicle Exhaust System

Affordable System Makes Installation Faster and Easier!

- **Professional Appearance**

Telescoping design eliminates winches, ropes and pulleys. Universal, clean look from bay-to-bay. Hoses are stored when not in use.

- **Quality**

Made in the U.S.A. 1-year warranty.

- **Affordability**

Most systems are more affordable than other professional options.

- **Safety**

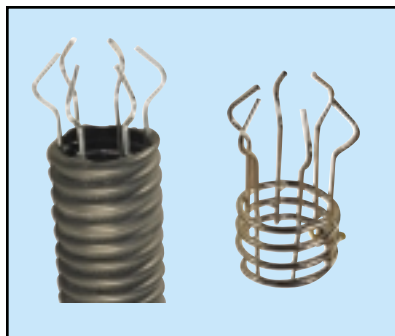

Innovative break-away design protects the vehicle being serviced, as well as the overhead exhaust system. Non-metallic tailpipe adapter protects the technician. No hoses left on the floor.

- **Durable**

Robust design produced of corrosion-resistant materials that should allow for years of trouble-free use.

- **Simple Installation**

The supplied duct saddle will adjust to various spiral duct sizes. System is shipped complete, ready to install.

- Break-away design reconnects easily.
- Requires no tools, ladders or high lifts.

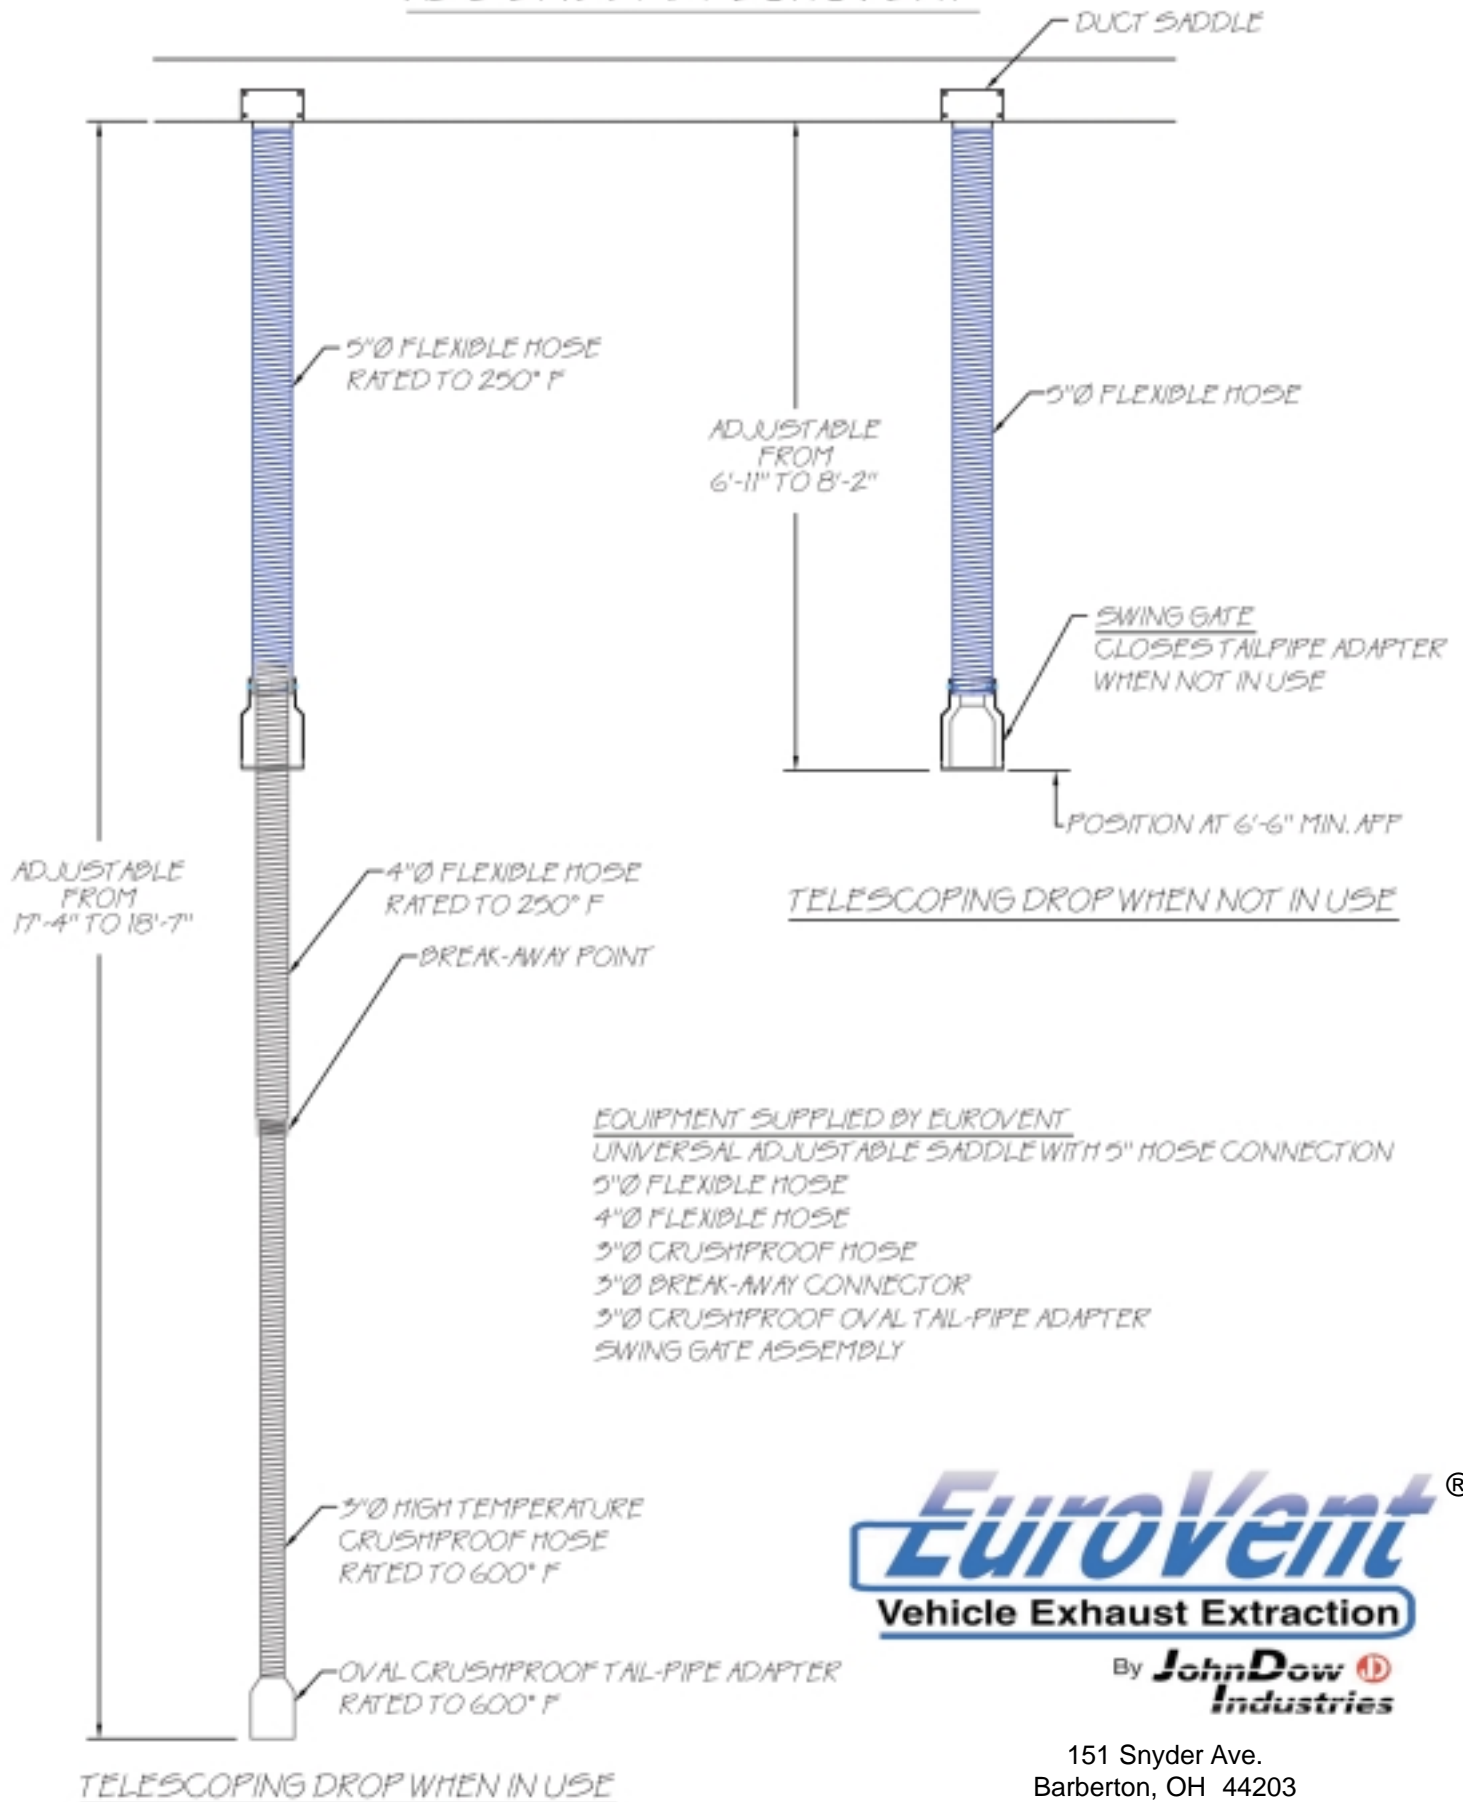

- Universal 3" Crushproof hose and adapter.
- Adapter screws onto hose. No clamps required.

Each system comes complete with 5" Universal Adjustable Saddle, 3-Piece Telescoping Hose, Universal Oval Tailpipe Adapter and Swing Gate Assembly.

System:
No. EVT-3
